Coffey stated that he would leave several articles to the jailer and keeper after his death. He had written a poem addressed to the murdered woman.

In court this morning, through an interpreter, she said that a boy named "George," whose last name she did not know, met her on Ludlow street on Thursday afternoon, gave her the powder, and told her to "do the business as quick as you can."

When pressed for answers to questions she said that about two months ago she was walking in Central Park when she became acquainted with a young man who said he worked in a near-by stable. She had seen him two or three times each week since then, and he had always told her that if she would rob and plunder all she could he would marry her.

She described the young man as being nineteen years old, of medium height, dark hair and eyes, and sallow complexion.

After being remanded, and while on the way to the station-house, she told Morris that she got the poison in the house, that it had lain around, and that Mrs. Ginsberg had cautioned her against using it.

Detectives Reap and Mullane, of the Eldridge street station, are on the two case, and will see the rabbi this afternoon, for the purpose of tracing the young woman's movements from the time she left him until she secured employment with the Ginsbergs.
